PRODUCT DESCRIPTION

DC distributor designed for wall mounting, IP40/20 serving as input distributor from photovoltaic panels (especially to AZ WATER INVERTER or inverter) when using water heating technology, or FVE chains up to 500 V.

Its advantage is its small size, which makes it possible to install it even in a space where there is a problem with a lack of free space.

The switchboard is fitted with a T1+T2 class DC surge arrester and a two-pole DC circuit breaker to protect the DC input to the WATER INVERTER or inverter.

Code	Manufacturer	Product	Description	Number of pieces
280345	EATON	BC-O-1/5-ECO	Switchboard ON plaster, transparent plastic. door, 1 row, 5 modules	1
AZT-SPD600-T1+T2	AZT	GSP9-C40PV	Surge arrester T1+T2 (I+II, B+C), photovoltaic applications 600V DC, In 20kA, I _{max} 40 kA	1
AZT-DC-B15/2	AZT	GYM9-DC B15 6kA	Circuit breaker, photovoltaic applications, 2-pole, 500V DC / 15A, short circuit resistance 6kA	1
